We believe we have the most comprehensive and valuable strategic business review in the market

–
Our review normally takes seven days of interviews and analysis spread over two weeks, involving a full end-end review at senior/board level to test and challenge the company direction and to understand the shape and culture of your organisation.

–
This involves workshops, interviews with your team and execs, and a review of your business metrics, followed by a full playback of findings and recommendations to you and your management team. We then document the findings in an actionable roadmap for you to take away.

WHAT'S IN THE STRATEGIC BUSINESS REVIEW?

Your refreshed and revised mission statement, vision and operating principles articulated to drive all aspects of the business

–
The culture and heartbeat of your business explored and documented for future use within your business and recruitment

–
Technology assessment, driven by your customer interactions and experiences

–

All roles and functions (defined by RACI) fully documented with recommendations
