

WORKPLACE HEALTH & SAFETY POLICY STATEMENT

As a licenced provider of quality civil construction and general building services Auzscot Constructions promotes and fosters health and safety management among employees and sub-contractors. Protecting our people, the environment and assets is good business. Our objective is a workplace free from incident and injury. We have a commitment to the prevention of work-related ill-health and a commitment to eliminate hazards and reduce WHS risks. To achieve this, we must all ensure the safety of AUZSCOT personnel through absolute commitment and cooperation of all in the workplace.

The aim of the Auzscot Constructions Safety Policy is to achieve the following goals:

- Commitment to Best Practice;
- Comply with all applicable Health and Safety Legislation, regulations and statutory obligations;
- To be decentralised and self-sustaining at each workplace;
- Provide for all necessary information, training and supervision of the employees and sub-contractors;
- Recognise the needs of the Client and provide assistance to achieve predetermined goals;
- Allow for WHS consultation and cooperation between the company, employees and sub-contractors;
- Seek to achieve the personal commitment of all employees, subcontractors, consultants in a safe workplace;
- To be fully measurable and auditable and monitor WHS key performance indicators;
- To be subject to regular review and where necessary revision of WHS policy and procedures to ensure compliance
- Provide a risk management system
- Committed to establishing measurable objectives and targets to ensure continued improvement
- Committed to consultation and participation of workers and worker representatives

It is the responsibility of all individuals to achieve and maintain a safe workplace. Ensuring all employees, clients and subcontractors endorse our zero harm vision.
