Exaltation; he orders all things according to the will of the Father & keeps the universe excellently, effecting by his unwearied, unwearying power, all things whereby he accomplishes the hidden purpose of the Father as he descends them.....
seeing all & searching the powers by his power. Unto him, as unto the Word of the Father who has received this holy administration by name of him, who has subjected them, is made subject the host of angels & of gods, through whom also all men belong unto him, though some belong by full knowledge, others not yet in the same degree, others as friends, others as

faithful servants, others as servants simply."

Word means God. 65 Only through Logos may we know God. 66 Word's office to inspire, warn, guide, care, love.

ORIGEN (69) - doctrine of the Eternal Generation of the Son.

God cannot be Father without the Son nor omnipotent without the Word whose instrumentality effects this will.

There never was a time when the Son did not exist.

No light & its radiance are inseparable, yet source & rays are distinguishable.

(72) But demons were also very near for O. - fallen spirits who lost their high estate by infirmity of will, active agencies of evil, incorporeal, earthbound, visiting long man to evil.

(79) T: "In all these theories of mediation the aim is to connect the One & the many, to relate God & the world, to show how Spirit comes into contact with material existence, to overcome contrast & opposition by a graduated scale of being. The intermediate beings, whether described as Atoms or Powers, as Spirit or as Logos, whether numerous as in one school, or restricted as in another, are always characterized by one determining feature. The order of their succession is a descending order. They are successive grades of being, but the whole process is a degradation. We pass from unity to multiplicity, from the

good to the less good. More & more, as we approach the material, form is limited by matter. The lower spiritual agencies can do what it would be impious to attribute to the higher. To be born into an individual human existence involves a descent for the soul."

80 "... in each successive astral circle something is lost."

81 "Alexandrine teachers are fundamentally at one in this. They all regard the cosmic process as one of subordination & deterioration. This process starts in the spiritual world & is continued in the visible & material. The extremes are on the one hand God, the One; on the other, formless matter. Theories of mediation supply the connection..."

Guru: Men who believe in God - & men - can yet believe
there is no intermediate organization, no officials higher
than themselves! Fantasies! Between the atom → man
and God, there must be organizational levels, if
organization as we know it is any guide at all. Blind
prejudice only could resist the conclusion.

Historically, Suprem, Con., Uncon are studied. I combine them.

Brock: Contemp. German Phil: (6) 19th Century characters by change from psych. of con. (Bacchus, Love, Home, Leibniz + Herbert Ryle) to psych. of uncon.

Dog: Tolkinín: Alexandria Teaching (83) "the Alexandines
lived ... largely in the Κόσμος νοητός, in the heavenly
or intelligible sphere. Grigori knew more about angels +
demons than he did about human beings. Clement was
more interested in the Logos than in the historic Son of Man."

thus : ① Early Xian & medieval thought was other-worldly,
super-conscious ② Renaissance was Humanistic, conscious
horizontal, not concerned with Supernatural world.
③ Modern thought is concerned with atoms, energy,
molecules in Physics, with uncon. in psychology.
④ Mablis' job is to unite 1, 2 & 3. Divorced, all suffer.
We live in a purposeless meaningless world, a sub-
human world. The atom-bomb evidence of this:
nuclear physics & Freud's uncon are connected.

History is thus a descent of Consciousness ? or ↗
This is a downward movement of the World-consciousness
a very slow differential breaking-down, taking 2000 years.

Entropy. Prof Tolman (^{has claimed}) of the California
Institute of Technology has shown that (in
certain cases) a universe expanding or con-
tracting at a finite rate can do so reversibly,
without leading to the ultimate 'heat death'.
Somewhat like as an infinitely narrow
loophole of escape ^{generally} from the enclosed
universe as to destiny of course.

Professor Tolman & others have, however, claimed to find
one kind of loophole by which the universe may conceivably
escape from it's doom.

The power transcending all others which has influenced individuals & nations since time began, that power which is the convergence of the invisible, intangible, spiritual forces of all humanity, is public opinion.

You never enjoy the world aright, till the Sea drift flourish in your veins, till you are clothed with the ~~X~~ heavens, & crowned with the stars; and perceive yourself to be the sole heir of the whole world, & more than so, because men are in it who are every one sole heirs as well as you. Till you can sing & rejoice & delight in God, as minis do in gold, & kings in sceptres, you never enjoy the world.

Till your spirit filleth the whole world, & the stars are your jewels; till you are as familiar with the ways of God in all Ages as with your walk & table; till you are intimately acquainted with that study nothing out of which the world was

69 My non-intelligence of human words
Ten thousand pleasures unto me affords....

Eternity : want & enforcement

I, 44 He is infinitely glorious, because all His wants & supplies are at the same time in his nature from Eternity. He had, & from Eternity He was without all His Troubles. From Eternity He needed them, & from Eternity He enforces them. For all Eternity is at once in Him, both the empty durations before the World was made, & the full ones after.

O. B. of Mystical Verse

11 The End in Him from everlasting is
 The fountain of all bliss :
 From everlasting it
 Efficient was, and influence did emit,
 That caused all. Before
 The world, we do adore
 This glorious End. Because all benefit
 From it proceeds : both are the very same,
 The End and fountain differ but in Name.

That so the End should be the very Spring
Of every glorious thing;

And that which seemeth last,
The fountain & the cause; attained so fast
That it was first; and now'd
The Efficient, who so lov'd
All worlds & made them for the sake of this;
It shew's the End complete before, and is
a proper token of His perfect bliss.
