## ABOUT ENVIRO EXCAVATIONS

Enviro Excavations is a respected hydro excavation specialist located in Melbourne. We have 30 years' experience in civil construction, landscaping, tree work, and tree surgery. We provide custom on-site solutions to meet the needs of any project. Our team specialise in underground utility location and have access to advanced safety and area protection equipment.

We have vast experience across a range of civil, development, infrastructure, and environmentally sensitive projects.

We have worked for:

- Ventia
- G&B Paternoster
- JWC Plumbing
- Laurie Curran Water
- Prasinus Energy Services
- 2Construct
- Amtek Solutions
- CPB
- Sedac Electrical
- Lowe Electrical
- High Access

At Enviro Excavations, we combine vast civil experience with extensive on-site integration. We understand the challenges involved with machinery and have the experience required to deal with the challenges of difficult access.

Our core values include:

- Client-focused approach
- Strong attention to detail
- Adaptability and resourcefulness
- Reliability and dependability
- Courteousness and trustworthiness
- Taking pride in everything we do

## HEALTH, SAFETY & THE ENVIRONMENT

We undergo consistent training hold numerous accreditations, and know how to manage environmentally sensitive projects. Our business is based on the following three principles:

- We focus on continuous performance improvements.
- We have established systems for risk mitigation and management.
- We are committed to the protection of Australia's natural environment.

We are ISO accredited, with our integrated management system compliant with:

- Quality Management to ISO 9001
- OHS Management System AS/NZS 4801
- Environmental Management System to ISO 14001

## BOOKING HYDRO & EXCAVATION SERVICES

At Enviro Excavations, we provide a complete hydro excavation solution across Melbourne and Victoria. We specialise in challenging access and environmentally friendly projects. Our services are delivered with expertise.

If you need non-destructive digging, utility locating, potholing, trenching, or other controlled excavation services, please contact our team for a free quote.
