

INVESTMENT ASSOCIATE

Infrastructure and Real Assets

SKIP CAPITAL

Location: Sydney

About the Role

Skip Capital, the private investment fund of Kim Jackson and Scott Farquhar (co-founder of Atlassian), is hiring a talented Investment Associate to join the team to assist with the investment and asset management of our Infrastructure and Real Assets strategy, through the Skip Essential Infrastructure Fund.

The Skip Essential Infrastructure Fund invests in long-term, cash-flow generative business across disruptive and innovative infrastructure sectors including renewable energy, the future of health and wellness, recycling and waste, water, food, and data infrastructure.

You have strong financial acumen and experience working in infrastructure or private equity. You are eager to use your capability to invest into innovative and transformative infrastructure and infrastructure-like assets. You are excited about future trends and aspire to be a forward-thinking long-term value investor.

The primary focus of the role is to assist with the investment and asset management of new and existing opportunities in global infrastructure. In addition, the role will give you exposure to listed companies and earlier stage future aware technologies in areas such as clean tech, circular economy, data, communications, and food tech, as well as credit and fixed income, and portfolio management. We encourage you to learn about and have exposure to high growth venture investment opportunities across the broader Skip Capital platform.

Working closely with the head of infrastructure and the Skip Capital CEO, your key responsibilities will include: financial modelling, due diligence, general analytical research into portfolio assets, rapid research shallow and deep dives, and assistance with general Skip portfolio level analysis and reporting.

Given that our team is young and expanding, this role will offer excellent career progression and learning opportunities for the right candidate. Our team is small, humble, and growing fast with huge potential, so the ability to work in an unstructured environment is a must. We're also excited for you to help craft Skip's culture.

About you

The following skills and attributes are desirable to be considered for this role:

- 3+ years experience in a relevant role (e.g. investment associate or analyst in an infrastructure or private equity fund, investment bank or management consultancy)
- Passion for emerging trends and thematic
- Strong experience in financial modelling (in particular DCF and cash flow focussed valuations) and numerical analysis of business financials and fundamentals
- Ability to write and communicate clearly and concisely

You possess the following qualities:

- Ability to work autonomously in a small team
- Propensity to learn, question and be proven wrong and iterate thinking
- Culturally relaxed, open, and empathetic
- Long term mindset, and absolute return mentality
- Confidence representing your organisation

Next steps:

If you are excited about this opportunity, we look forward to meeting you soon! Please email your CV and cover letter to: careers@skipcapital.com. Please include "Investment Associate - Infrastructure and Real Assets" in the email subject.

In your cover letter, please raise if you have specific experience in infrastructure in one of the following areas: renewable energy, health and ageing infrastructure, recycling and waste, water, food infrastructure, or data and communications infrastructure.

About Skip and the Skip Essential Infrastructure Fund

Skip Capital, which has over A\$1bn of assets under management, is a patient investor with a long-term investment horizon. We are passionate about technology and innovation, and its ability to create a better future.

The Skip Essential Infrastructure Fund, which deploys in excess of A\$100m per annum, has been established to invest in long-term, cash-flow generative business. With a multi-decade investment horizon, we seek contracted and regulated cash flows across businesses which facilitate core and essential functions throughout the global community. Given that the inception of this strategy coincided with a period of pivotal digital transformation and increased focus on social wellbeing and environmental impact, we are targeting disruptive and innovative infrastructure which, we believe, will enjoy tail winds for the coming decades. As such we invest in renewable energy, the future of health and wellness, recycling and waste, water, food, and data infrastructure.

Our team has a long history strong track record in infrastructure investment across some of Australia's leading investment funds. We have taken this knowledge in conjunction with our personal values and combined Skip's passion for innovation and growth to develop our unique investment strategy.

Beyond infrastructure, Skip Capital invests in venture capital and public listed equities. We are unconstrained by traditional investment class boundaries. We bring private investment experience into the listed markets and vice versa. We believe that combining the expertise obtained between asset classes facilitates more informed and better investment decisions.

We are an equal opportunity employer. We believe that great ideas are not confined to any group within the population. We do not discriminate on the basis of race, religion, colour, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.
