

Venture/Tech Investment Professional

Skip Capital is looking to add a full-time investment professional to our Sydney-based team. As this is one of many roles we will be hiring for, we are open to applicants from associate level to partner level.

We are a family office with a passion for technology. We believe it is changing the world. We invest private, long term focused, patient capital for a better tomorrow.

Across our portfolio, we invest in startups, growth companies, listed equities, private assets, infrastructure and funds. You will focus on startups but will also assist across all of these fields.

You will join a small but growing team of bright, passionate professionals.

Must have:

- experience in venture, angel, or other technology investing (2-6+ years)
- real passion for continual learning and ability to question external/internal views
- ability to acquire large amounts of information rapidly, distil it into insights for others and take a view
- ability to discern information and facts from hype or generalities
- balance of long term thinking with a 'get s@#t done' attitude
- founder empathy and drive to support our founders achieve their mission
- enthusiasm to meet and form relationships with lots of startups, subject experts and other investors
- ability to work self-directed in a small team
- experience in executing transactions and working with legal documents
- proficiency in financial modelling and return analysis

Nice to have (any of the below):

- experience investing in health tech (extra points for data science, genetics, precision medicine or medical statistics)
- experience in listed equities
- experience working within a startup

What the job entails:

- scouting, filtering, meeting and assessing inbound and outbound investment opportunities across startups (and other asset classes)
- seeking out best in class investors, founders, and subject domain experts to inform investment decisions
- assessing founders' true ability to execute on their mission
- building investment theses and analysing markets to identify opportunities
- investment execution, including coordinating legal advisers
- performing due diligence, developing financial models, and preparing investment recommendations
- developing relationships with other private investors, venture and other funds
- supporting portfolio companies to achieve their potential

- critiquing and participating in team investment decisions in other areas – eg listed equities, funds, private deals and more

Environment:

- relaxed, easy-going growing team with lots of enthusiasm for the future
- autonomous work. You will have to work by yourself at times

This is an opportunity for someone passionate about building a world class startup portfolio, supporting our founders and looking at new opportunities.

We are an equal opportunity employer. We believe that great ideas are not confined to any group within the population. We do not discriminate on the basis of race, religion, colour, national origin, gender, sexual orientation, age, marital status, veteran status or disability status.

This role will be based in Sydney.
