

Stamina Express has over 40% active ingredient compared to 17% for the market leading soil penetrant, to help your turf hang on for longer in times of extreme water stress.

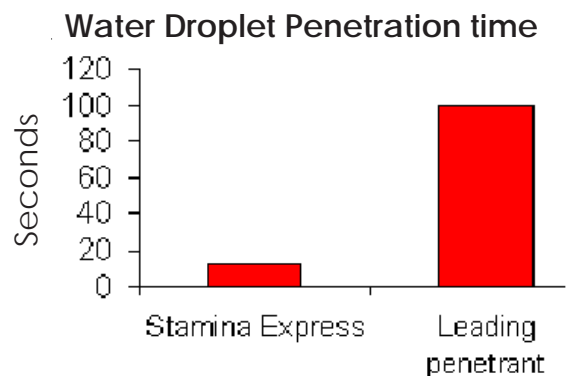

1. A unique delivery system is now available in Australia - It will penetrate any applied water into the soil profile so every drop is utilised and gets to the soil profile where it needs to.

2. The dual action capability ensures the active will **remain** in the profile **with Stamina** to ensure optimal water distribution when the sprinklers go off and rainfall must be utilised.

- Beneficial for water with a low nutrient charge and to place tank mix compatible chemicals in the profile where required.
- Perfect for injection use or boom spray application

Technical Information

Perfectly suited for Australian conditions, water is taken into the soil profile with unprecedented speed. The least amount of water is lost through evaporation or runoff, so more is delivered to the soil profile.

Application information

Pack Sizes: Stamina Express - 20L & 200L

Situation	Rate/ 100 Sq.M	Rate / Ha	Comments
