

TOTAL GENERATORS

INTEGRATED POWER FOR MINING

“ Real People
delivering powerful
solutions 24/7 ”

Keeping the Australian Mining Industry powered up, and operational.

For more than 25 years, the Australian Mining Industry has been relying on Total Generators Assets and Personnel to provide sustainable, reliable, safe and competitive temporary power and electrical distribution to keep them powered up with confidence.

Our highly qualified and experienced teams and their families work in partnership with mining companies and communities to deliver security in power.

We design and deliver powerful solutions, including:

- **Continuous Power**
- **Stand By Generator Sets**
- **Large Scale Processing Plant Power**
- **Power for Shut Downs**
- **Coal Handling Solutions**

We are on call delivering, refuelling, and monitoring our clients power in Low or High Voltage, 24 hours a day 7 days a week.

Our strength is in AC Alternators to Switch Boards, which are available 'Mine Site Compliant' at short notice.

Total Generators Rental Equipment is:

- **Designed and built in Australia by Total Generators**
- **Developed for Life of Mine**
- **Developed to withstand the harsh Australian environment**
- **Electrical Protection Systems and Transformers (1000V – 11kV class) that are compliant across Queensland and the Northern Territory**
- **Remote Monitored in Australia**

We believe in ZERO OUTAGES.

To help us achieve this, we take a proactive approach to consistently high preventative maintenance systems during the operating life cycle of our Rental Fleet.

Total Generators Mining Services optimises the servicing process in order to safeguard the performance of our Rental Fleet and your power generation equipment.

Our goal is to permanently increase your power efficiency and reliability by being your preferred power supplier. The Total Generators technologically advanced Rental Fleet encompasses advances in temporary power such as remote monitoring and fuel efficient engines coupled together with our Mining Industry expertise, to give you a competitive edge.
