

# VITAL BON-MATT STONEWALL

**H2flow**  
Hire

**Vital Chemical's Vital Bon-Matt series is a new generation of dust and erosion control chemicals providing efficient and cost effective results.**

On every work site a multi-purpose tool is always the most cost-effective solution. Vital Bon-Matt Stonewall has been independently tested to provide the highest levels in dust management and ground stabilisation, with its proven 90% reduction in sediment loss\*.

Vital Chemical's renowned polymer technology provides instant stabilisation in a wide range of applications including but not limited to:

- Exposed soil, sand or aggregate
- Stockpiles
- Berms and swales
- Truck or train veneering
- Clear water diversions and pond linings
- Sub-base road stabilisation
- Low trafficked areas

Vital Chemical's industry partner H2flow Hire provides turn-key applications of Vital Bon-Matt products.

**Vital Chemical provides products which enable our clients to adapt best practice technologies to mitigate the environmental impact of mining and civil developments. Vital Chemical's products are designed for ease of use without the need for specialised equipment.**

**COST-EFFECTIVE, INSTANT & SUSTAINABLE SURFACE STABILISATION TECHNOLOGY**
